DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story, two bay brick house with shed roof and bracketed cornice is one of the small alley houses that line this side of Churchill St. The house has recently been restored.

The house is two stories in height, about 15' wide, and occupies a lot 41' deep. The house is two rooms deep and there are no rear additions. The house is constructed in common bond. The shed roof is capped by a wooden cornice consisting of a deeply projecting crown molding set above a row of dentils and a deep, plain freize area. Grooved end brackets support the entire cornice and frame the freize area. There are no extant chimneys.

The first and second floor window openings have flat wood lintels and wood sills. All of the window openings are filled with new 6/6 sash. A modern six panel door is set beneath a single light transom. The house sits on a fairly high basement, the entrance being reached by three brick steps. A rectangular basement opening is located beneath the first floor window.
